PROFILE

Freelance Interactive Producer in Brooklyn with experience as a creative developer, designer and technical project manager. Born in the 80's raised in the 90's and always keeps it 100.

EXPERIENCE

Kanye West / DONDA 2013 - Current
Interactive Producer
Manager and developer of Kanye West's official web & mobile site. Consistent delivery on tight schedules with demanding expectations. Digital strategy for DONDA.

Tribeca Film Festival 2012 - 2013
Technical Project Manager
Managed a team of three Ruby on Rails developers for the 2013 Tribeca Film Festival web & mobile site, TribecaFilm.com. Coordinated with design and editorial teams.

Spins.FM 2010 - Current
Founder
Reinventing the radio request line using social media. The app helps artists and radio stations engage fans by making it fun and easy to request songs on local radio.
